Reporting search dates in Cochrane Reviews

Date	Section	What's new
19 Aug 2019	General	<ul style="list-style-type: none"> Updated the policy and guidance introduction. Added information about what to show in the search appendix. Added a note for editorial base staff at the end of the document on how to correctly populate the 'Assessed as up-to-date' field and 'Date of search' fields in RevMan.
25 May 2017	General	Clarified definition of "Full search – results fully incorporated" in Table and provided references.
January 2015	General information	At the joint meetings of the Co-ordinating Editors, Managing Editors, and Trials Search Co-ordinators held during the Cochrane Colloquia in Auckland (2012) and Quebec (2013) it was agreed that 'Date of search' should be used instead of 'Assessed as up-to-date' to reflect the search and full incorporation of all search results into a Cochrane Review. The technical issues associated with retiring the 'Assessed as up-to-date' field are currently being addressed by Cochrane and Wiley; however this will not prevent editorial teams from adhering to this new policy on how to report search dates.

General notes

Date	Note
20 Aug 2013	The Cochrane Policy Manual was replaced by Editorial Policy and Publication Resource and the Cochrane Organisational Policy Manual (since retired). Many sections included in this resource originated from the Cochrane Policy Manual, which had been maintained and developed by the Central Executive Team. The Cochrane Editorial Unit (CEU) (now called the Cochrane Editorial & Methods Department) led the development of this resource with assistance from Noémie Aubert Bonn (CEU intern, February to September 2013). The CEU is grateful to those people who provided feedback on the resource as it developed and to those people who prepared text for each section (see named individuals on each section) or provided feedback on drafts.
