Complimentary Cochrane Library access for Cochrane authors and Groups

Contact authors of Cochrane Reviews

The Contact Person for each published Cochrane Review receives an online complimentary subscription to the Cochrane Library. The complimentary subscription lasts for 2.5 years from the publication date of the most recent citation version. This does not apply to Protocols.

The mechanism for enabling this via Archie is no longer working, and a new process is being established. For now, authors who do not have access through other means (see https://www.cochranelibrary.com/help/access) should contact Wiley at cs-cochrane@wiley.com.

Cochrane Groups

Each Cochrane Group is entitled to at least one complimentary subscription, courtesy of Wiley. The mechanism for enabling this via Archie is no longer working, and a new process is being established. In the mean time, groups should contact Wiley's Cochrane Library customer service team via cs-cochrane@wiley.com.
