# Complimentary Cochrane Library access for Cochrane authors and Groups

## Contact authors of Cochrane Reviews

A complimentary online subscription to the Cochrane Library is offered to the Contact Person of each published Cochrane Review, courtesy of Wiley. The complimentary subscription is valid for 2.5 years from the publication date of the review's most recent citation version. Complimentary subscriptions do not apply to protocols.

Contact authors can access their complimentary subscription via their Cochrane Account. They may also choose to donate their subscription to a named individual. See specific instructions in the Archie Knowledge Base.

## Cochrane Groups

At least one staff member of each Cochrane Group is entitled to a complimentary online subscription to the Cochrane Library, courtesy of Wiley. See instructions on how to activate access in the Archie Knowledge Base. Groups may contact Cochrane Support (support@cochrane.org) if additional subscriptions are needed.
