

# December update

We have arrived at the end of 2021 when most of us are ready to take a break!

NB: Cochrane will be closed from the 25th December until the 3rd January incl. and many staff are on leave from the 20th December therefore queries may not be dealt with until January. (CALENDAR)

As I have already communicated I am leaving Cochrane this month so from today please direct all your PICO annotation queries to [Anna Last](#) in the Slack annotation channel and continue to make vocabulary requests via the usual request form.

If you are having any tech issues with the tools remember to post them to the Slack annotation channel.

Enjoy your time off and happy new year 😊
