

What are we annotating?

Review types being annotated

We are annotating the PICO inclusion criteria in the methods section ONLY of the following:

- Intervention reviews
- Living Systematic Reviews (LSR) (intervention)
- Network meta-analyses (intervention)

What publication years are covered?

Our main focus has been on reviews published from 2015 to date however there are some exceptions:

- Top 500 accessed reviews in the Cochrane Library regardless of publication date
- Any reviews published prior to 2015 that are deemed important by the CRG
- Any reviews contained in [Cochrane Special Collections](#)

Review types NOT being annotated

At present the following are not being annotated however this may change in the future:

- Diagnostic Test Accuracy (DTA) reviews
- Umbrella reviews
- Methodological reviews
- Prognostic reviews
